

myPic Studio

Customize your debit card today

Shazam myPic Studio allows you to create and personalize your debit card with a photo of your choice. Choose from two different templates to upload a photo of family, friends, pets, or a favorite vacation spot with an edge-to-edge or 1" x 1" card design.

Step 1: The **Card Designer** page

Create your personalized card design with the functions offered:

- You have two options for choosing an image: either pick an image from the myPic gallery or upload your own image by clicking **Upload Your Image** in the toolbar
- Move an image by using the control in the toolbar or by dragging the image with your mouse
- Scaling the image up and down
- Rotate the image by clicking the **Rotate** button on the toolbar
- Flip the image horizontally

Make sure the image is properly cropped to ensure the desired portion of the picture will be visible on the card (See Image Guidelines for more information).

Step 2: Uploading an Image

Design Preview serverside

Back Please select a file to upload Browse Upload

Your image must be at least 840x840 pixels and no more than 10MB in size.

Upload Guidelines

1. Click on the Browse button to select an image from your computer.
2. Select the image from your computer by double-clicking on it.
3. Click Upload.

Remember

- Use a high quality image - the better your image, the better your final card will look. Picture files can be either JPEG (.jpg), PNG, GIF, Bitmap (.bmp) or TIFF formats.
- Please note: the bigger the picture you choose, the longer it will take to upload.

- Click **Browse**
- Select an Image
- Click **Upload**
